## 2D READER, BECAUSE INDUSTRY 4.0 IS ALREADY HERE

FEATURES

- Maximum speed line up to 50 m/min *(depends on the type of material)*
- Communication interface: Modbus TCP.
- Up to 24 devices in the same work network.
- Operates in ambient light conditions.
- Operates with all types of codes *(DATAMATRIX is recommended)*
- Adjustable distance between the reader and the tile *(between 250mm and 120mm)*
- Continuous air flow over the reader, to avoid sedimentation of dust.
- Extremely robust, encapsulated in stainless steel.
- Adjustable height frame.
- Heavy and solid base, which keeps the equipment immovable without anchors.
